THE UNCOMFORTABLE TRUTH

Let's be honest for a second.

Your current YouTube strategy is probably "post and pray."

You make a video about something you think is valuable. You upload it. You share it on LinkedIn. You wait.

And then... **crickets**. Or worse — views that go absolutely nowhere.

Meanwhile, some coach with 200 subscribers just closed a **\$15,000 client** from a video with 400 views.

What the hell is going on?

Views don't equal clients. The RIGHT views do.

I've seen coaches with 100,000 subscribers making ₹5 lakhs a month.

I've seen coaches with 500 subscribers making ₹50 lakhs a month.

The difference isn't their editing. It's not their camera. It's not even their charisma.

It's their topics.

One group makes content for "browsers" — people who want free information and will never buy.

The other group makes content for "buyers" — people actively looking for solutions and ready to invest.

Same platform. Same algorithm. **Completely different results.**

This guide will show you exactly how to choose topics that attract **buyers, not browsers.**

No fluff. No theory. Just the system that's generated millions in revenue for coaches who "shouldn't" be winning on YouTube.

Let's fix your content strategy.

WHY MOST COACHES GET THIS BACKWARDS

THE INFLUENCER TRAP

Here's what happens to most coaches who try YouTube:

They look at what's working for big YouTubers. They see videos with millions of views. They think, *"I should make content like that."*

So they make:

- "Day in my life as a coach"
- "My morning routine"
- "What I eat in a day"
- Generic motivational content

And they get... some views. Maybe even good views. **But zero clients.**

Why? Because they're copying **INFLUENCERS**, not **BUSINESS OWNERS**.

FINESTCLIENTS

Influencers

Monetize **attention**

Need millions of eyeballs

Make pennies per view

Business Owners

Monetize **trust**

Need 10-20 right eyeballs

Make thousands per client

Different game. Different strategy.

THE TWO TYPES OF YOUTUBE VIEWERS

BROWSERS

- ✗ Watching for entertainment
- ✗ Killing time
- ✗ Looking for free info
- ✗ Will never buy anything
- ✗ Want to "learn" forever

BUYERS

- ✓ Watching to solve a problem
- ✓ Researching solutions
- ✓ Evaluating options
- ✓ Ready to invest if convinced
- ✓ Want results, not just info

Here's the kicker: The same person can be a browser OR a buyer depending on **WHAT THEY'RE SEARCHING FOR.**

→ "funny dog videos" = **Browser**

→ "how to stop my dog from barking at night" = **Buyer** (about to hire a trainer)

Your job: Create content that **ONLY** attracts buyers.

THE CLIENT CONTENT MAP™

The 5-Zone System That Turns Viewers Into Clients

Most coaches think YouTube is one thing: *"Make valuable content."*

That's like saying business is one thing: *"Make money."*

Technically true. Completely useless.

YouTube content actually serves 5 different purposes. I call them the 5 Zones:

ZONE 1 & 2: TOFU (Top of Funnel)

ATTRACT — Broad content that brings new eyes

ZONE 3: MOFU (Middle of Funnel)

NURTURE — Educational content that builds trust

ZONE 4: BOFU (Bottom of Funnel)

CONVERT — Decision-stage content that books calls

ZONE 5: BRAND VIDEOS

SCALE — Your winning format, repeated

HERE'S WHY THIS MATTERS

Influencers only make Zone 1 & 2 content. They attract millions but can't monetize.

Most coaches only make Zone 4 content. They convert well but nobody sees them.

The magic is in the MIX.

You need content at every level:

✓TOFU brings them in

✓MOFU builds trust

✓BOFU converts

✓Brand Videos scale what's working

Let me break down each zone...

Click to Clients • Finest Clients

ZONE 1 & 2: TOFU

THE ATTENTION MAGNETS

TOP OF FUNNEL

Goal: Get discovered by your market

Top of Funnel content is your **"wide net."** It's designed to reach people who don't know you yet. These videos get views. They get shared. They build your subscriber base.

But they don't directly sell anything. Think of TOFU as the billboard that makes people aware you exist.

VIDEO TYPES THAT WORK

The Controversy Hook

- "Why I Stopped [Common Practice]"
- "The Lie About [Industry Belief]"
- "Why [Popular Advice] Is Terrible"

The Timeliness Hook

- "Is It Time to [Action]?"
- "[Current Event] — What It Means"
- "The [Year] Guide to [Topic]"

The Big Promise Hook

- "How to [Dream Outcome] in [Time]"
- "The [X]-Step System for [Result]"
- "How I Went From [Bad] to [Good]"

The Story Hook

- "I Lost [Money] Because of This"
- "What [X] Years Taught Me"
- "The Worst Advice I Ever Got"

EXAMPLES FOR COACHES

Niche	TOFU Topic Example
Business Coach	"Why I Fired My Best Client (And Made More Money)"
Health Coach	"The Diet Industry Doesn't Want You to Know This"
Career Coach	"Is Your Resume Actually Hurting You?"
Sales Coach	"The #1 Reason You're Losing Deals (It's Not Your Pitch)"

THE TOFU RULE: These videos are **NOT** about your offer. Don't pitch. Don't sell. Just provide massive value that makes people think: "Damn, this person knows their stuff."

TOFU creates AWARENESS. The selling happens later.

ZONE 3: MOFU

THE TRUST BUILDERS

MIDDLE OF FUNNEL

Goal: Prove you know your stuff

Middle of Funnel content is your **"trust engine."** These videos don't go viral. They **rank.**

While TOFU brings people in, MOFU makes them stay. It proves you're not just entertaining — you're legitimately helpful.

This is where the "YouTube is a search engine" magic happens.

VIDEO TYPES THAT WORK

How-To Videos

- "How to [Solve Problem] Step-by-Step"
- "The Complete Guide to [Process]"
- "How to [Action] Even If [Obstacle]"

Deep Dives

- "Everything About [Topic]"
- "[Topic] Explained in [X] Minutes"
- "Ultimate Breakdown of [Subject]"

Listicles

- "7 Ways to [Achieve Outcome]"
- "5 Mistakes Killing Your [Goal]"
- "10 [Tools/Tips] for [Result]"

Workshops/Tutorials

- Long-form (30-90 min) education
- Screen shares
- Live demonstrations

THE SEO SWEET SPOT

For MOFU content, you want topics that are:

High Impact

Solves a real problem your buyers have

Low Difficulty

Fewer than 10 competitors ranking for it

How to check: Search your topic on YouTube (incognito). If fewer than 6 videos are directly competing, and your channel can match the views of video #5-6, **you can rank.**

|| *These videos work while you sleep. Someone searches a problem at 2am. Your video ranks. They watch 20 minutes. They trust you. Three months later, they're ready to buy. Guess who they call?*

MOFU creates TRUST.

ZONE 4: BOFU

THE CALL BOOKERS

BOTTOM OF FUNNEL

Goal: Turn viewers into leads

Bottom of Funnel content is your "**conversion engine**." This is where views become leads. Where subscribers become sales calls.

Most coaches ONLY make this content. That's why their channels don't grow — they're always pitching to an empty room.

But when you have TOFU bringing people in and MOFU building trust, **BOFU content converts like crazy.**

VIDEO TYPES THAT WORK

Comparison Videos

- "[Your Method] vs [Alternative]"
- "[Option A] vs [Option B] — Honest"
- "Should You [Path A] or [Path B]?"

Case Study Videos

- "How [Client] Got [Result]"
- "From [Before] to [After]: Story"
- "[Client] Results Breakdown"

Podcast/Interview Content

- Interview clients with results
- Interview complementary experts
- Interview prospects (positioning)

VSL & Direct Pitch

- Full offer presentation
- "I'm Opening [X] Spots"
- "Is [Program] Right for You?"

THE PSYCHOLOGY BEHIND BOFU

Before any purchase, humans:

1. Compare options
2. Seek proof it works for people like them
3. Look for reasons to say yes (or no)

BOFU content gives them all three.

- Someone watching a **comparison video** is ALREADY considering buying.
- Someone watching a **case study** is ALREADY convinced the solution works.

A BOFU video with 500 views that generates 10 qualified calls is worth more than a TOFU video with 50,000 views and zero calls.

BOFU creates CONVERSIONS.

ZONE 5: BRAND VIDEOS

THE WINNING REPEATS

SCALE ZONE

Goal: Do more of what works

Brand Videos aren't a content type. They're a **STRATEGY**.

The idea is simple: **Find what's working, then do more of it.**

HOW IT WORKS

After 20-30 videos across all zones, you'll notice patterns:

- ✓ One video format gets 3x the views
- ✓ One topic angle generates most calls
- ✓ One style keeps viewers watching longer

That's your Brand Video format.

REAL EXAMPLE: MRBEAST

Look at MrBeast's channel. Search "Survive" in his videos:

- "I Survived 100 Days"
- "Survive 100 Days, Win \$500,000"
- "I Survived 7 Days in an Abandoned City"
- "I Survived 50 Hours in Antarctica"

Same framework. Same format. **Repeated endlessly.**

Why? Because it **WORKS**. He's not being lazy. He's being smart.

FOR COACHES

Your Brand Video might be:

- A specific **interview format** that converts
- A **"breakdown" style** that gets views
- A **comparison format** that books calls

→ A **storytelling structure** that hooks viewers

You won't know until you make enough videos to see the pattern.

THE BRAND VIDEO RULE: Make 20-30 videos across all zones. Track everything. See what emerges. Then milk that winning formula for all it's worth.

Brand Videos create SCALE.

THE 3 TOPIC METHODS

How to Never Run Out of Content Ideas

METHOD 1: COMPETITOR MAPPING

The easiest way to find topics that work.

1. Identify 5 competitors (1 big, 2 medium, 2 small)
2. For each, find their 20 most-viewed videos
3. Categorize each by zone (TOFU, MOFU, BOFU)
4. Ask: **"Can I make a better version?"**

Result: 100 proven topic ideas, already validated by the market.

METHOD 2: THE NICHE TREE

Map out everything your audience needs to learn.

1. Write your **PARENT** topic (what you help people with)
 2. List 4-5 **CHILD** topics (main areas within that)
 3. For each child, list 10-20 **specific problems**
 4. Add a **"RESULTS"** branch — the outcomes they want
- Result:** A comprehensive map of every topic your audience cares about.

METHOD 3: THE FUNNEL FRAMEWORK

Use the 5-Zone structure to generate balanced content.

Zone	Topics	Focus
Zone 1 & 2 (TOFU)	20 each	Viral hooks, broad appeal
Zone 3 (MOFU)	20	SEO keywords, how-tos
Zone 4 (BOFU)	20	Comparisons, case studies
Zone 5 (Brand)	20	Reserved for winners

Validate each with B.E.N.S. test. Prioritize by impact + difficulty.

Result: A strategic content calendar that covers all stages.

WHAT'S NEXT

The Missing Piece

You now have the system for choosing topics that book calls.

But here's the truth:

Topics are only 30% of the equation.

The other 70%?

- **SCRIPTING:** How you structure videos to convert
- **HOOKS:** The first 30 seconds that determine everything
- **CTAs:** Where you place them and what you say
- **TRACKING:** How you know which video = which client
- **THUMBNAILS:** The packaging that earns the click

OVER THE NEXT FEW DAYS, I'LL SEND YOU:

1 The Conversion Script Framework

How to structure videos that turn viewers into booked calls. The exact framework we use for clients.

2 The Attribution System

How to track exactly which video generates which client. Most coaches have no idea where their YouTube leads come from.

3 The Full System

If you don't want to do this yourself — how we do it all FOR you.
